

## Inbound Logistics Recognizes nulogx as Top Logistics IT Provider

TORONTO, Ontario (PRWEB) May 10, 2006 -- Nulogx Inc., a leading provider of logistics and supply chain execution software technology, announced today it has been named to *Inbound Logistics'* "Top 100" in its annual listing of Logistics IT companies leading the way by providing solutions that best meet the diverse and growing needs of the industry.

The *Inbound Logistics Top 100* serves as a logistics IT decision support tool for evaluating solution providers with information technology characteristics that match companies' specific needs. Editors compiled this year's in-depth list from more than 400 logistics IT providers, using thousands of questionnaires to business logistics managers.

"Nulogx is committed to delivering leading-edge technology applications that facilitate management and execution of the world's most complex supply chains." said Bob Morrow, President, nulogx Inc. "We are proud to be recognized as a technology leader by *Inbound Logistics* and our customers."

*Inbound Logistics* is a monthly publication that strives to keep North American companies globally competitive through information and editorial focused on sourcing, logistics and transportation. *Inbound Logistics'* 2006 Top 100 Logistics IT Provider list appears in the publication's April 2006 issue and can be viewed at [www.inboundlogistics.com/lit100](http://www.inboundlogistics.com/lit100)
